#### A TONIC

Grove's Tasteless chill Tonic restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

Grove's Tasteless chill Tonic is simply Iron and Quinime suspended in syrup. So pleasant even children like it. The blood needs QUININE to Purify it and IRON to Enrich it. Destroys Malarial germs and Grip germs by its Strengthening, Invigor-sting Effect. 60c.

# Think You Can Spell? NATIONAL FARM NEWS

How many words can you make from the letters in "FARM PROTECTION"? Ten, twenty, twenty-five or more? Here is a fine chance to cash in on your knowledge of spelling. TRUTH

The National Farm News will give a \$250 cash prize to the person who sends in the largest list of correctly spelled words made from letters in "FARM PROTEC-TION," provided the list is accompanied by \$1.00 to cover one new yearly subscription to The National Farm News. There are no strings tied to this offer—
it is all right efore you in this announcement. Just
make up you rlist of words on a plain sheet of paper
and send it in with one yearly subscription to The National Farm News at \$1.00. Theer is positively nothingelse you need do.

SURPRISE PRESENT ABSOLUTELY FREE To Every Contestant

Send in a list of words accompanied by a yearly subscription at \$1.00 and we will immediately send you a Dandy Surprise Gift. Every contestant who submits a list of words accompanied by a subscription as above will positively receive one of these Surprise Gifts whether they win the

#### **ACT QUICK IF YOU WANT \$250**

Surely you could use \$250.00 extra money. Here is your opportunity. Act now—you might just as well have a nice cash prize as anyone else. This fine prize would enable you to buy many things you have been wanting or would be a mighty fine addition to your bank account.

#### THE RULES ARE SIMPLE

1. The object of the Contest is to make as many words as possible from the letters in "Farm Protection." A letter may be used only as many times in a word as it appears in "Farm Protection." For instanc. a word may contain only one "R" as that letter appears only once in "Farm Protection."

2. All words shown in the dictionary will be counted in case they cantain only the letters appearing in key word. Words spelled alike with different meanings will be counted as one word. Both singulars and plurals may be used, and both be counted provided they are in the dictionary.

5. The Contest is open to anyone living any place in the United States. No regular salaried employee of The National Farm News or any of their relatives may enter.

4. Collaboration is permissible, but collaborating parties must not submit more than one list. Any list sent in that may lead the judges to believe—because of duplication or similarity—they have been compiled by one and the same person or grocounted.

5. In case of a tie, duplicate prizes will be awarded.

This gift will be sent absolutely free for sending a list of words and subscription promptly. We guarantee that you will be genuinely surprised when you receive this dandy free gift.

counted.

5. In case of a tie, duplicate prizes will be awarded.

6. Webster's New International Dictionary, 1926 edition, will be used in determining the correctness of words.

7. Words must be written an one side of the paper only and must be numbered consecutively. No list will be counted which does not conform to this rule. Prepare your list neatly. Name and address must appear on each sheet.

8. Three executive officers of The National Farm News will act as judges in the Contest, and contestants agree to accept their decision as final and conclusive.

9. All lists of words and accompanying subscriptions must bear a postmark not later than Saturday, March 26, 1927. Each list must be accompanied by a yearly subscription to The National Farm News at \$1.80, and all such lists will be promptly acknowledged. Winners will be announced in The National Farm News.

SEND LIST OF WORDS AND SUBSCRIPTIONS NOW TO RECEIVE DANDY SURPRISE PRESENT AT ONCE

Just pin to your list of words an extra sheet of paper bearing your name and address, also the name and address of the person to whom the subscription to The National Farm News is to be sent. Mail as soon as

THE NATIONAL FARM NEWS, 215 G St., N. W., Washington, D. C. A SAMPLE COPY CAN BE HAD A I THIS OFFICE AND WE WILL FORWARD YOUR SUBSCRIPTION FOR YOU. SUBSCRIBE NOW.

#### A Benefactor

A physician who reaches out to benefit humanity leaves a record behind him that is worth while. Such a man was Dr. R. V. Pierce.

His study along medical lines, and his knowledge of the remedial qual-ities of herbs and plants led to the discovery of his wonderful herbal ite Prescription. It is just the tonic re-

pain and sufferings at regular or irregular intervals, by nervousness or dizzy spells, headache or backache. Favorite Prescription can be had in tablet form as well as liquid at your.

#### CARING FOR BABY CHICKS.

By Mrs. Roy Sullivan. Having cared for baby chicks for a number of years I will try to pass my experience along to some others who may just be starting to raise

Baby chicks are very delicate creatures and should be handled with care. Mother Nature has provided plenty of food to last the little fellows until they are 48 or 60 hours old and can go 72 hours without food. Many people feel sorry for the little fellows when they get noisy and want to feed them as they seem hungry, but it's just natural for them to make a fuss. Never feed before 48 hours. I have a good warm brooder provided for them and fountains of water and buttermilk, with some grit oyster shell and charcoal scattered on papers on the floor. I give each one a taste of buttermilk as he is put into brooder then he is ready to pick and scratch for grit. After they have picked at the shell and charcoal for a while I sprinkle a good buttermilk chick starter on clean papers and feed hoppers. As soon as they learn to eat keep the chick starter before them continually, also plenty of buttermilk and fresh water and just watch them grow, they'll be crowing before you know it. I always keep a good fire but not too warm and never let them get chilled. Watch the corners as they grow older so as to keep them from piling up and smothering. After they are five or six weeks old change gradually to a good growing mash and give them all they'll eat

FUNCTIONAL inactivity of the kidneys permits a retention of waste poisons in the blood. Symptoms of this toxic condition are a dull, languid feeling, drowsy headaches and, sometimes, toxic backache and dizziness. That the kidneys are not functioning as they should is often shown by scanty or burning passage of secretions. Many readers have learned the value of Doan's Pills, stimulant diuretic to the kidneys, in this condition. Users everywhere endorse Doan's. Ask your neighbor!

PREPARE NOW FOR SPRING POTATO CROP.

By Mrs. J. W. Recknor, Jr. For an early crop of potatoes one should begin at once to prepare the ground where they are to be planted so it will be in the best condition to receive the crop at the regular planting time. The period between February 15th and March 15th being the most acceptable time for planting. Of course the date of planting will vary with the seasons and the earliness of the crop desired. If potatoes are to be planted at all the land should be prepared now and some thought should be given to the location of the ground whether it drains well or not because land that drains well will warm up earlier in the spring thus giving an earlier crop. The soil should be preferably sandy loam that is very rich in humus, although many kinds of soil will produce a good crop of Irish potatoes if planted and treated correctly. Texas produces very few potatoes compared to her Northern sister states but if more care and attention were given to the production of potatoes we would soon rival the Northern states because of a better climate and the fact that we can grow two crops in the same year.

The most of our failures in potato production are due to the way the land is prepared or the amount of

the pieces to one eye each but or-dinarily the seed bed is not too well prepared, and if cut to one eye each the conditions are not favorable enough to cause all of them to germinate hence we have a poor stand as the result. There should be two or more eyes to each piece and it should be thick so as to give the young plant a chance to grow strong before it begins taking up plant food from the soil. It is always best to cut the seed by hand as it can be more accurately done and as a result we will get a better yield. There are many potato cutters on the market

# Fordson

THE UNIVERSAL TRACTOR

## How Power Tools Pay for **Themselves**

It is no longer necessary for the farmer to use the old-time costly manual farming methods. He can motorize his farm. He can buy power tools now and let them pay for themselves. The new A. B. C. Finance Plan makes this possible.

The tractor represents the movable power plant of the farm. Today the farmer can actually finance this most useful of all power implements for less than the cost of keeping one horse for four and one-half months and take two falls' time to pay for the same! To lower his costs, to make his farming more profitable, the farmer needs the Fordson tractor and power-driven tools. The A. B. C. Plan supplies him the money to pay for them.

Recent United States Department of Agriculture Surveys reveal amazing facts on the high cost of horse power. They show big labor-saving and money-making opportunities open to farmers who use power tools.

The Government says that each year the farmers of the United States spend THREE THOUSAND MILLION DOLLARS (\$3,000,-000,000) for power. They use more power than all the factories and all central power stations combined. Where would factory owners be if they tried to drive their factories with muscle power?

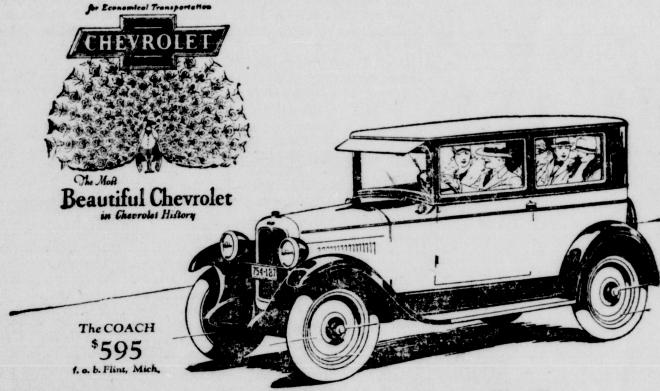

80.8%, or four-fifths of all the power expenditures go for horse power. This same horse power produces only 40.8% of the total Again, per H. P. hour, the horse costs .....

in the belt ... See U. S. Government Dept. of Agriculture Bulletin No. 1318.

LET US EXPLAIN THIS PLAN.

Alamo Drilling and Leasing Company on the Kenedy ranch in western the editor of the Devine News and dent the redemptiin of sinful man you can offer at a reasonable principle. Medina County was drilling at 1,320 the Rio Grande Baptist, and daughter through the sufferings and death of get in touch with us and we will feet Friday night.

Arnett Oil Company in Medina County is getting a little salt water in the No. 5 Nixon. Total depth is 1,071 feet and it topped the sand at 1,050 feet and has 6%-inch casing set at 846 feet. It is between the oil in the Ina Field on the north and gas in the Adams Field on the south and is interesting for that reason and also for the reason that a little oil was found in the hole. The first showing was oil without any salt water. They will probably prospect more in that territory.

Texas Border Oil Company well on was awarded to Mr. O. W. Tondre. the south side of the Medina River Refreshments consisting of jello and the Somerset Road that has been will plug the hole.
